ges\skin\_coloredline\dialogframeleftrig

ht.gif to

obj\Release\Package\PackageTmp\.

And you have a \Package\PackageTmp\

---

file in the

\\Release\\Package\\PackageTmp\\  
folder... How do you deal with this?

Added four minutes later. Got it. I  
figured it out on my own. When I created  
a new project, I created only one file  
there. And it created these folders. I  
deleted them and now everything is fine.
