Hi everyone, when I try to run Sh5, I get an error message that says "Mission Terrain.dll" is missing from my computer. I played Sh5 for .Net 4.0, but played it on XP too. When I remove the "Mission Terrain.dll" it works fine, but when I try to load the sh5 file, it says that a later version of Sh5 (version for .Net 2.0) is required. I also removed the Sh5.ini file, which has no effect. I installed Sh5.exe in default .Net folder but when I run sh5 it doesn't work, it just hangs after 2 minutes. Can anyone tell me what should I do to solve this problem? Thanks in advance.
