Key - The Eyedropper and Magic Wand are tools used to select pixels and portions of an image. The eyedropper is used to select points and the Magic Wand is used to select whole areas. The most common use of the

eyedropper is to select a color. The Magic Wand is used to select an area by clicking the tool and drawing a box around it. - The Hand Tool lets you draw and select objects by pressing your mouse on the screen. The Hand Tool uses the Pen tool as it's parent. When you press the

Hand Tool, your cursor becomes a pen. Click your mouse button and drag to draw lines. When you let go of the mouse button, the Hand Tool converts the lines you drew into points. You can also press and drag to select objects. The Pen tool also enables you to draw freehand or select

objects by clicking and dragging the mouse around on the screen. Next - The Healing Brush is used to repair or remove unwanted elements. This tool can be used on text, images, backgrounds or even on any other object. The icon is rather large, so the tool is best used on a large

Beverage Bill Gets Final Hearings Hartford - A bill to ban most tobacco products from alcohol

wholesalers goes before the legislature for the final time Wednesday. House Bill 5598 would ban tobacco products, including cigarettes, chewing tobacco and electronic cigarettes, from being sold at liquor and wine stores, clubs and convenience stores in

Connecticut. Cigarettes are already banned from restaurants and bars. The sponsor, Rep. Justin Dibble, D-Columbia, said he and supporters think small amounts of tobacco used to flavor alcohol are not addictive, and he said he feels it's "irresponsible" to make liquor stores a

place where patrons can inhale smoke. But opponents said the bill, approved by the House Judiciary Committee last week, is unconstitutional and unconstitutional because it is an overly broad ban on free speech. They have said the tobacco industry contributes \$3

million a year to the state's general fund. The Senate is not expected to take up the bill this session. The bill is designed to have a public hearing before it goes to the floor for the House vote.

Q: Word for the color of eyes looking into a small circle I'm looking for a word, but I'm not sure

how to describe the color, shape, or color tone of eyes looking into a small circle (like the picture shows). I thought it might be a shade of grey? A: With a simple question like this, the best we can do is to offer a few possibilities: Had they been drinking a lot? (living

in a big city, where people drink a lot, there are a ton of euphemisms for drunkenness. "over the limit" and "over the edge" are just two of many.) Had they been smoking marijuana? (it's another one of those euphemisms.) Had they been under the influence of "ecstasy"? No

established term. A: Such
circles are called
either 'spots' or 'bubbles.'
