Mutations in the NCCTOS gene and its paralog TSPAN12 are associated with autosomal dominant and juvenile hydronephrosis, respectively. We report three patients from two unrelated families affected by both autosomal dominant and juvenile hydronephrosis, in whom we identified a novel, homozygous insertion of a T into nucleotide 1575 of the NCCTOD1 gene. The insertion of a T into the nucleotide 1575 completely stops the coding sequence of NCCTOD1, thereby resulting in the substitution of the last 21 C-terminal amino acids of NCCTOS. We also observed a simultaneous HHT, mild dysplasia of the ears and hearing loss in one of the patients. I have an answer? Are there any places in the Bible that are ambiguous? Or
